

PINEY WOODS REGIONAL ADVISORY COUNCIL, TSA-G Tyler, Texas

Job Title: Data Analyst

Location: Tyler, Texas (RAC-G Region includes 17 counties)

Organization: Regional Advisory Council (RAC-G)

Salary: Based On Experience: \$25,000 - \$40,000/Year

Schedule: Hours TBD/Per Month: approximate 50+

Job Status: Part-Time; local and/or remote

Job Overview:

The Regional Advisory Council (RAC-G) in East Texas seeks a Data Analyst to support our mission of improving patient care within the RAC-G Service Area. RAC-G coordinates efforts among healthcare entities, EMS providers, and community stakeholders to develop, implement, and monitor for process improvement. The Data Analyst will play a crucial role in abstracting and analyzing data to drive improvements in patient care, facilitate system networking, and provide valuable insights to support medical facilities. Data Analyst will monitor participation data to assist RAC members in providing the best care possible for their patients.

Key Responsibilities:

- Collect and abstract data related to patient care within the region.
- Assist in identifying trends, opportunities, and areas for improvement in patient care outcomes.
- Provide data-driven insights to support the implementation of the regional plan.
- Collaborate with healthcare entities, including hospitals, physicians, nurses, EMS providers, rehabilitation facilities, and community groups.
- Access and utilize various databases to gather relevant healthcare data.
- Develop and present reports to inform decision-making and facilitate improvements in medical care.
- Ensure data quality, accuracy, and integrity in all analyses.
- Serve as a data liaison between RAC-G and medical facilities, offering support to improve data usage and analysis.
- Access and utilize various databases to gather relevant meeting participation for facilities to maintain their participation requirements for certification.

Required Qualifications:

- **Clinical Background:** Experience in a clinical setting and a solid understanding of healthcare and trauma data sources.
- **Technical Skills:** Proficiency in Microsoft Office (Excel, Word, PowerPoint) and expertise in accessing and managing data from various healthcare databases and a strong attention to detail.
- **Communication Skills:** Ability to present data findings to diverse audiences, including medical professionals and community stakeholders.
- **Problem-Solving:** Ability to identify challenges in patient care and propose data-driven solutions.

Preferred Qualifications:

PINEY WOODS REGIONAL ADVISORY COUNCIL, TSA-G Tyler, Texas

- Medical Coding degree
- Medical studies, including medical terminology, anatomy and physiology
- Familiarity with patient registries and healthcare data reporting tools.
- Previous experience in data analysis, healthcare quality improvement, or related fields is highly desirable.
- Knowledge of statistical methodologies and data visualization techniques.
- Analytical Skills: Strong mathematical and statistical abilities, able to analyze small-to-large datasets and generate meaningful insights.

How to Apply:

Interested candidates should submit their resume and a cover letter outlining their qualifications and relevant experience to Loretta@RAC-G.org.

Join us at RAC-G to help improve patient care in East Texas through data-driven insights!
