1. TOPIC: Old Business – review of re-designations

ACTION: Information as to the survey included information from Bonnie about the finite details that were required when the surveyor reviewed information. QAPI is a learning curve in that each surveyor has a different way to look at it and the requirements might be the same but the information for some surveyors is more comprehensive. There was a recommendation to have a collaboration of PCR's and what each hospital is doing to educate other hospitals that they have agreements of transfer with.

2. TOPIC: Speaker – Carla Rider with TETAf will present new information on findings of surveys for Maternal designation and other information that helps our Northeast Texas hospitals provide better care for moms and babies.

ACTION: Carla did not make it to the call and of this typing have not heard from her.

3. TOPIC: Questions for Carla????

ACTION:

4. MISCELLANEOUS DISCUSSION ITEMS: reminded the group of the requirements of meetings to be compliant when submitting for re-designations or designations. Encouraged the group to get their ob/pedi medical directors involved in the RAC committee meetings. Informed that I would give information as to the SouthTexas RAC for sharing of information.
