1. Approval of minutes from last meeting.
 - Motion: Jim Speier
 - Second: Chad Solomon
 - Minutes Approved
2. GETAC Updates
 - Updates were the same as those given in the Air Medical Meeting 10 minutes ago.
3. 2023 EMS for Children Survey.

Our current response rate is **18.6%**.

This assessment of the readiness of EMS agencies in Texas to treat ill or injured children helps us understand more about the current complexion of emergency care for children. The data provided helps us determine benchmarks in the areas of pediatric emergency care coordination and use of pediatric specific equipment.

 - Per Shawn Salter: this survey was sent out by a Utah based hospital system and most likely went to everyone's spam folder. You can do a Google search and find it or wait for it to be sent out soon. Sam Vance EMSC Texas Rep is the primary contact for this survey. More to follow soon.
4. ALERT Advanced Law Enforcement Rapid Response Training
Presented by Sergeant Drew Allison of Longview Police Department

- Drew reported on the reason behind the training and need for police, fire, and EMS to be on the same page when responding to active shooter type of events. But these responses do not have to be a shooter, they can be any response involving the agencies.
- Funding needed for training equipment – (kit \$51,000).
- Integrated Response Class, 2-day class, all PD, FD, EMS.
- AIR Class – May 2nd-3rd, Gladewater, Texas, contact Drew for details.

5. EMRescources log in spreadsheet update

- Aaron at the RAC has asked everyone to please update their information in EMRescources. Contact Arron if you have questions

6. Educational offerings Upcoming

- CTMF Stroke Symposium 4/21/23
