Item 4. Per Paula Brandon, she has asked Gabriella Orsak, Phd and Anastasia Miller, Phd to analyze the accident data. They have agreed to work on the data as soon as they are available.

Dr. Huff said she would share her SPSS data with Dr. Orsak and Dr. Miller.

Open Discussion: Per Marshall Kratz, the ATeamV should try to get more funding for the program after the THAI grant ends this August 2018. Possibly, it should be tied into the RAC. Marshall also suggested that we speak to TRHA (Texas Rural Health Association)

Marie reported that she has schools wanting more information on the program. There is an increase in accidents in Titus County.

The next meeting is scheduled for Wednesday, February 14, 2018 at 1:30pm at UT Health's AHEC office.

Meeting adjourned at 10:45am.
